SKIN

Hydration Complex

am pm

A light and refreshing hydration boost for the skin, formulated to provide a soothing, calming effect. Vitamin C and Société's innovative Peptide Complex promotes increased collagen and elastin production, while antioxidants and hyaluronic acid soothes and reduces the appearance of redness associated with skin resurfacing procedures, rosacea and sunburn. The unique complex offers both 'anti-microbial' as well as proliferative performance.

BENEFITS:

- Provides "Anti-Wrinkle" effects with advanced peptide technology
- Boosts skin hydration without adding oil
- Soothes and calms skin, speeding post-procedure recovery
- Contains peptides & vitamin C
- Delivers enhanced results when used with Société's Intense Firming Complex
